

Printable Charades Cards

Free sample pack · 18 cards · US Letter

How to play

1. Print this pack, then cut along the lines. Card stock or thicker paper holds up better, but ordinary paper is fine.
2. Split into two teams and put the cards face down in a bowl.
3. One player draws a card and acts out the word — **no talking, no sounds, no pointing at letters**.
4. Their team guesses for up to two minutes. A correct guess scores a point; then the turn passes.
5. First team to ten points wins.

Difficulty

- Easy — one clear gesture, good for children
- Medium — needs a short scene
- Hard — abstract or multi-part, for adults

Deal by difficulty to balance a mixed-age table: children draw from the Easy pile, adults from Hard.

Four ways to play

Family game night

Two teams, two minutes a turn, first to ten points. About 40 minutes.

Party or office

Teams of four or five, one minute a turn. Short turns keep a big room moving.

With young children

No teams, no score, no timer. Each child takes a turn on Easy while the adults guess.

Mixed ages

Use the difficulty as a handicap: children draw Easy, teenagers Medium, adults Hard.
