

Print Calibration Sheet

Charades card packs · A4 (210 x 297 mm)

Before printing: set scale to **100% / Actual size**.

Turn **off** "Fit to page", "Shrink oversized pages" and "Scale to fit" — that setting is the single thing this sheet exists to catch.

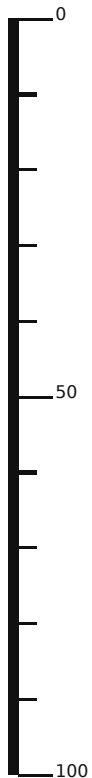

1 SCALE CHECK

Measure the black bar below with a ruler. It is drawn **exactly 150 mm**.

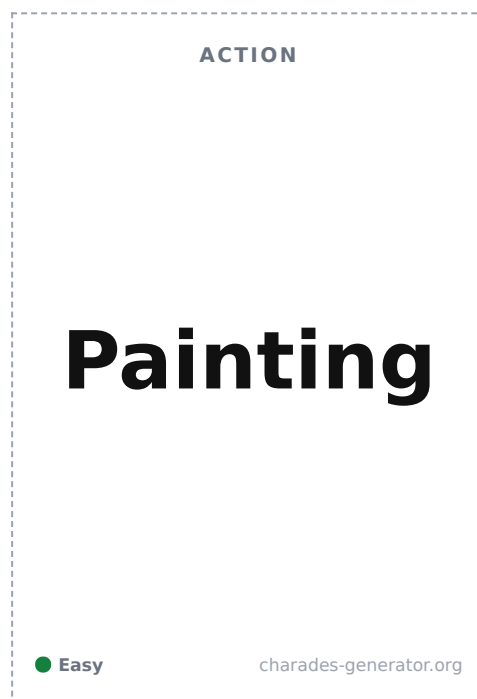

2 VERTICAL SCALE

This bar is **exactly 100 mm** tall. Some printers squash one axis only.

3 CARD SIZE

Cut this card out along the dashed line. It should measure **63 x 92 mm** — near a standard playing card.

4 CUT LINE

This is the exact line weight the packs use for cutting. Is it dark enough to follow with scissors or a blade?

5 SMALLEST TYPE

Hold the sheet at arm's length. Can you read every line?

CATEGORY LABEL 7.5PT
